MA stands disposed of.

OA 2218/2022

1. Invoking the jurisdiction of this Tribunal under Section 14 of the Armed Forces Tribunal Act, 2007, the applicant filed this OA praying to direct the respondents to accept the disabilities of the applicant as attributable to/aggravated by military service and grant disability pension with benefit of broad-banding with effect from the date of retirement along with all consequential benefits.

2. The applicant was commissioned in Indian Army on 17.12.1983 and retired on 31.01.2019. The Release Medical Board held that the applicant was fit to be discharged from service in composite low medical category for the disabilities- (a) Primary Hypertension @ 30%, (b) Dyslipdemia @ 1-5%, (c) Diabetes Mellitus Type-2 @ 20% and Composite assessment @ 50% while the qualifying element for disability pension was recorded as NIL for life on account of disabilities being treated as neither attributable to nor aggravated by military service (NANA).

3. The claim of the applicant for grant of disability

pension was rejected on 12.12.2018 and the applicant's First Appeal was rejected on 25.03.2019, and Second Appeal was preferred on 08.05.2019 and rejected on 05.09.2019 stating that the aforesaid disabilities were considered as neither attributable to nor aggravated by military service. Aggrieved by the aforesaid rejection, the applicant has approached this Tribunal.

4. Placing reliance on the judgement of the Hon'ble Supreme Court in ***Dharamvir Singh v. UOI & Ors [2013 (7) SCC 36]***, Learned Counsel for applicant argues that no note of any disability was recorded in the service documents of the applicant at the time of the entry into the service, and that he served in the Indian Navy at various places in different environmental and service conditions in his prolonged service, thereby, any disability at the time of his service is deemed to be attributable to or aggravated by military service.

5. Per Contra, Learned Counsel for the Respondents submits that under the provisions of the Pension Regulations the primary condition for the grant

of disability pension is invalidation out of service on account of a disability which is attributable to or aggravated by Indian Army service and is assessed @ 20% or more.

6. Relying on the aforesaid provision, Learned Counsel for respondents further submits that the aforesaid disabilities of the applicant were assessed as “neither attributable to nor aggravated” by Indian Army service and not connected with the Indian Army service and as such, his claim was rejected; thus, the applicant is not entitled for grant of disability pension due to policy constraints.

7. On the careful perusal of the materials available on record and also the submissions made on behalf of the parties, we are of the opinion that it is not in dispute that the extent of disability was assessed to be above 20% which is the bare minimum for grant of disability pension in terms of Pension Regulations for the Indian Army. The only question that arises in the above

backdrop is whether disability suffered by the applicant was attributable to or aggravated by military service.

8. The issue of attributability of disease is no longer res integra in view of the verdict of the Hon'ble Apex Court in ***Dharamvir Singh v. Union of India (supra)***, wherein it is clearly spelt out that any disease contracted during service is presumed to be attributable to military service, if there is no record of any ailment at the time of commission into the Military Service.

9. Furthermore, the issue regarding the attributability of Diabetes Mellitus has been settled by the ***Hon'ble Supreme Court in Commander Rakesh Pande v. Union of India (Civil Appeal No. 5970 of 2019)*** wherein the Apex Court has not only held that the Diabetes Mellitus is a disease which is of permanent nature and will entitle the applicant to disability pension, but also observed that in case where the disability is of permanent nature, the disability assessed by the Medical Board shall be treated for life and cannot be restricted for specific period.

10. Regarding broadbanding benefits, we find that the ***Hon'ble Supreme Court in its order dated 10.12.2014 in Union of India v. Ram Avtar (Civil Appeal No. 418 of 2012)*** and connected cases, has observed that individuals similarly placed as the applicant are entitled to rounding off the disability element of pension. We also find that the Government of India vide its Letter No. F.No.3(11)2010-D (Pen/Legal) Pt V, Ministry of Defence dated 18th April 2016 has issued instructions for implementation of the Hon'ble Supreme Court order dated 10.12.2014 (supra).

11. Applying the above parameters to the case at hand, we are of the view that the applicant has been discharged from service in low medical category on account of medical disease/disability, the disability must be presumed to have arisen in the course of service which must, in the absence of any reason recorded by the Medical Board, be presumed to have been attributable to or aggravated by military service.

12. As the disability Dyslipidaemia has been assessed @ 5%, the claim in this regard is rejected.

13. Therefore, in view of our analysis, the OA is allowed and Respondents are directed to **grant benefit of disability element of pension @ less than 50% for life rounded off to 50% in view of judgement of Hon'ble Apex Court in Union of India versus Ram Avtar (supra)** from the date of retirement i.e. 30.01.2019. The arrears shall be disbursed to the applicant within four months of receipt of this order failing which it shall earn interest @ 6% p.a. till the actual date of payment.

13. Consequently, the O.A. is allowed.

14. No order as to costs.
